WORK EXPERIENCE

PicPay S/A • Vitoria, Brazil • 07/2018 – 12/2022

iOS Developer

PicPay is a payment app with 45 million users and a large native codebase.

My responsibilities:

- Refining business requirements and technical designs.
- Implementing and delivering large-scale features with rich and interactive UIs.
- Integrating third-party features, libraries, and APIs.
- Addressing bugs and enhancing non-scalable code.
- Mentoring junior engineers.

Evologica Ltda • Vitoria, Brazil • 12/2016 – 04/2018

iOS Developer

Evologica is a software consultancy company. My main tasks:

- Refining and implementing features in a insurance app.
- Implementing scalable UIs for iPhones and iPads.
- Testing and deploying app to the App Store.

EDUCATION

Bachelor degree in Computer Science

UFES / UC Davis • 04/2013 – 01/2019

Associate degree in Computer Networks

FABAVI • 01/2006 – 07/2008

SKILLS

- Proficient in Swift and SwiftUI.
- Knowledge of Apple's design principles, interface guidelines, and App Store submission process.
- Experience working with RESTful APIs and integrating third-party libraries into iOS apps.
- Skilled in managing application lifecycles in large codebases and diverse architectures.
- Experienced in coordinating agile ceremonies and processes.
- Highly effective in remote work environments, with 3 years of remote work experience.
- Strong verbal and written communication skills in English.
